

## Supplements Guide

*\*Consult with your veterinarian before adding any nutritional supplements to your dog's diet, especially if they are pregnant, nursing or receiving treatment or medication for an existing condition.*

## WE SPECIALISE IN THE FOLLOWING SERVICES:

### One-on-One Consultations

Is your dog suffering from recurrent allergies, itchy paws, ear infections, chronic inflammation or gut problems and is on a merry-go-round of medications for these conditions?

Or perhaps you have a rescue dog who hasn't had a great start to life, or a puppy who you want to give the very best chance of health and longevity!

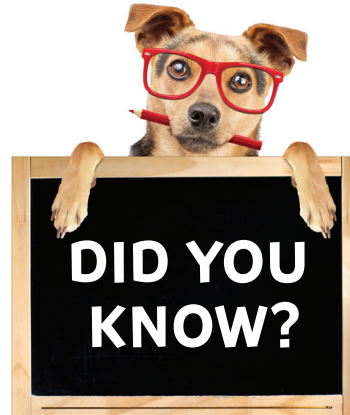

**We can provide tailor-made recommendations regarding diet, thoughtfully chosen supplements and herbal remedies to restore and enhance the overall health and well-being of your dog.**

### Canine Myofunctional Therapy

Dogs In Sync will come to your home and perform a detailed assessment of your dog followed by a full body massage..

*Optimise your dog's health ... naturally*

### WE OFFER GROUP WORKSHOPS

Come and get your paws dirty!  
Learn how to raw feed your puppy or dog at Dogs In Sync HQ or other pop-up locations. Keep your eye on our socials for upcoming dates or contact us to register your interest.
